WHITE HOUSE INITIATIVE ON TRIBAL COLLEGES AND UNIVERSITIES

November 28, 2007

Greetings and welcome!

It is my sincere pleasure to welcome you to the Technical Assistance Workshop, *Strengthening Academic Competitiveness for Tribal Colleges and Universities*. This is the second annual workshop that the White House Initiative on Tribal Colleges and Universities (WHITCU) has offered for the nation's Tribal Colleges and Universities. It responds to Executive Order 13270, that reaffirms tribal colleges and universities (TCUs) are fully recognized and have unfettered access to federal programs benefiting higher education. We understand and recognize the fact that TCUs are both integral and essential to their communities. It is in this spirit of education and collaboration that WHITCU is pleased to offer this event.

All Americans deserve the opportunity for high quality, post-secondary education. In keeping with the Tribal Colleges and Universities tradition of offering high quality education to thousands of students, as well as providing much needed job training and other support for economic development in Indian Country, we welcome your participation. We hope the exchange of ideas and opportunities serves to strengthen the capacity of each institution.

We have a high number of presenters at this conference. Eighteen agency programs will be presented during this 2-day session. Since last year's session we have worked with many agencies and discussed capacity-building opportunities for the TCUs. Many of the programs being discussed during this session currently have an open request for proposals, or the RFP will be out shortly. Several presenters will discuss ongoing program opportunities that you might wish to clarify any questions you have as you prepare to apply for a grant.

This workshop can support your specific goals and efforts to seek new funding opportunities, clarify concerns, and offer the presenters time to hear from you—their constituents—on the ways to help their programs meet your students' needs. Strong, positive interaction can ultimately assist in long-term development and strengthen institutional viability at each of your colleges.

Please let us know what we can do to help fulfill your goals for attending this conference here in Minneapolis.

Sincerely,

DEBORAH J. CAVETT
EXECUTIVE DIRECTOR
