**Program Description**

This program provides financial assistance for the planning, program design, and initial implementation of charter schools, and the dissemination of information on charter schools. Grants are available, on a competitive basis, to SEAs in states that have charter school laws; SEAs, in turn, make subgrants to developers of charter schools who

have applied for a charter. If an eligible SEA elects not to participate or if its application for funding is not approved, the Department can make grants directly to charter school developers.

### **Types of Projects**

An eligible applicant that receives a grant or subgrant may use the funds only for post-award planning and design of the education program of a charter school. It may carry out such activities as the refinement of the desired education results, the refinement of the methods for measuring progress toward achieving those results, and the initial implementation of the charter school. Implementation may include informing the community about the charter school and acquiring necessary equipment, materials, and supplies. Other eligible operational costs that cannot be met by state and local sources also may be covered. A state may reserve up to 10 percent of its allocation to support eligible charter schools for dissemination activities.
