

Section 2422 of the *Elementary and Secondary Education Act* specifies that the secretary shall update and publish, in a form readily accessible to the public, a national long-range technology plan that describes how the secretary will promote: (a) higher student academic achievement through the integration of advanced technologies, including emerging technologies, into curricula and instruction; (b) increased access to technology for teaching and learning for schools with a high number or percentage of children from families with incomes below the poverty line; and (c) the use of technology to assist in the implementation of state systemic reform strategies. In addition, Section 2422 specifies that this report should also include a description of joint activities of the Department of Education and other federal departments or agencies that will promote the use of technology in education. In accordance with that requirement, the Office of Educational Technology of the Department of Education is publishing this report.

This report was produced under U.S. Department of Education Contract No. ED-04-CO-0040, Task Order 0002, with SRI International. Bernadette Adams Yates served as the contracting officer's representative. Mention of trade names, commercial products, or organizations in this report does not imply endorsement by the U.S. government. This publication also contains URLs for information created and maintained by private organizations. This information is provided for the reader's convenience.
