

**Project Abstract:** The project proposes the following goals and expected outcomes: 1) Annual enrollment of 30 eligible participants (commuter & residential), 2) 88% completion of 1<sup>st</sup> year, 3) 94% persistence rate after 1<sup>st</sup> year, 4) 100% annual completion of financial aid requirements for new participants, 5) 100% will have basic needs services/resources, 6) 100% referral rate after the 1<sup>st</sup> year, 7) 100% will receive STEM career related information. The primary first-year support services/activities include: Summer Program, intrusive academic advising, peer mentoring, career guidance, tutorial services, class materials support, social emotional and sociocultural enrichment opportunities to ensure academic success. The project will be located on the CSUMB campus located in Seaside, California.

Project addresses the *invitational preference priority Meeting Student' Social, Emotional, and Academic Needs* by continuing its legacy in meeting the social, emotional, and academic needs of migrant farmworker students in collaboration with strategic partners. CSUMB is committed to ensuring a seamless, equitable student life cycle from first point of contact through graduation and beyond, and to provide a comprehensive and proactive support system for students to meet their academic and lifelong goals, and provide proactive, comprehensive and inclusive mental health and wellness support services, keeping us confident in our ability to meet CAMP student's needs in all the areas under the invitational priority; and *competitive preference priority Consideration of Prior Experience* given the successful management of a CAMP grant with continuous funding for the past 10 years at CSUMB, resulting in exceeding national objectives for GPRA 1 & GPRA 2 continuously. CSUMB CAMP was first awarded in 2014 and has successfully continued with level funding, a fact that supports the quality and efficiency of management that is mindful of the need to maximize time, fiscal resources and productivity.
