

690.5 to clarify employee tuition benefits are earned, not 'grants'

Submitted by Jeff Arthur

Propose adding para (a) to 690.5. I also saw other negotiators with other ideas on exclusions that if accepted could be included here.

690.5

(a) For purposes of this section, "grant aid" does not include:

(1) Employer-provided educational assistance, tuition benefits, tuition reductions, training benefits, or similar employer-sponsored educational support provided to an employee, former employee, or their dependents, whether or not such assistance is paid directly to the institution.
