

Language for consideration Submitted by Kristin Hultquist

P. 29. Add (d) The Secretary shall notify students when they have used 200% and 400% of their annual Pell eligibility on their FAFSA submission summary and via email.

Rationale. Students and institutions need to accept accountability for the “Pell clock” beginning upon receipt of the Workforce Pell, and design/redesign career pathways to ensure that Pell-eligible students have sufficient Pell funds to contribute toward associates and/or bachelor's degree. To facilitate this, additional student notification is helpful. Currently, ED provides institutions notification when students hit 450% of Pell eligibility. Students are never proactively notified; they can find LEU on studentaid.gov but it is highly likely they don't know where to look or what it means.
