

Proprietary Proposal - 690.93(b)(3)

Submitted by Jeff Arthur

If you received, or do receive, changes that included this language from the vet group with their changes to this same paragraph then this is only duplicative and need not be distributed. If not I want to make sure this gets distributed otherwise but please remove this note. Thank you!

Propose appending:

690.93(b)(3) to read:

3) The process and timeline for the Governor's consultation with the state board and a determination that an eligible workforce program meets the requirements in paragraph (a), and the process for an institution to appeal that determination; "...and that such process shall include clear, transparent, and timely procedures that are applied consistently and equitably to all eligible institutions authorized under Title IV of the HEA."
