(a) *Change in expected family contribution.*

(1) The institution shall recalculate a Federal Pell Grant award for the entire award year if the student's expected family contribution changes at any time during the award year. The change may result from—

(2) Except as described in 34 CFR 668.60(c), the institution shall adjust the student's award when an overaward or underaward

is caused by the change in the expected family contribution.

If such a policy is established, it must apply to all students.

(d) *Receipt of assistance from non-Federal grants.* If, prior to the final disbursement of a student's Pell Grant for an award year, the institution becomes aware that the student has received or will receive grant or scholarship assistance from non-Federal sources that equals or exceeds the student's cost of attendance as described in 34 CFR 690.5, the institution must either -

(1) Reduce the non-Federal grant or scholarship assistance until it does not equal or exceed the student's cost of attendance;

or

(2) Return all of the Federal Pell Grant funds that the student received for that award year pursuant to 690.79 and cancel any future disbursements of such funds for that award year.

(3) The bilateral agreement includes provisions for data-sharing among the States for purposes of completion and placement rate calculations.

§ 690.94 Components determined by the Secretary

(a) After the Governor determines that the program meets the requirements under 34 CFR § 690.93, the Secretary evaluates documentation from an eligible institution to determine that the following requirements have been met -

(1) The program has met the conditions under 34 CFR § 690.92 (a) and (b) for the 12 months preceding the date on which the institution applied for eligibility for the program.

(2) The program meets placement and completion rate requirements—

(i) For the 2026-27, 2027-28, and 2028-29 award years only, as determined through a certification from the Governor, based on the Governor's analysis using administrative data, including wage records, that the program meets the following standards—

(A) A completion rate of at least 70 percent, within 150 percent of the normal time to completion; and

(B) A job placement rate of at least 70 percent, calculated as the percentage of students that are employed during the second quarter after exiting the program;

(ii) For each award year after the 2028-29 award year—

(A) A completion rate of at least 70 percent, within 150 percent of the normal time of completion, as determined under 34 CFR 668.8 (f); and

(B) A job placement rate of at least 70 percent, calculated as the percentage of students who are employed in the occupation(s) for which the program prepares students (as identified through the process established under 34 C.F.R. 690.93 (b)) or a comparable high-skill, high-wage, or in-demand occupation during the second quarter after successfully completing the program, as

determined through a certification from the Governor, based on the Governor's analysis using available administrative data, including wage records.

(b) For each award year after the date that the eligible workforce program is approved, the institution must—

(1) Submit to the Governor a list of students that completed the program during the award year and the information necessary for the Governor to verify the job placement rate for such award year; and

(2) Report the published tuition and fees for the eligible workforce program through a process determined by the Secretary.

(c) The Secretary may waive some or all of the requirements under paragraphs (a) and (b) of this subsection related to submission of completion rates and the Governor's certification of job placement rates if—

(1) The Secretary determines that completion or placement rates will be calculated under a separate process established by the Secretary; or

(2) In the case of the job placement rate certification described in 34 CFR 690.94(a)(2)(ii)(B), the Secretary determines that the Governor is making progress towards making such certification but needs an additional award year using the certification described in 34 CFR 690.94(a)(2)(i)(B).

(d) For each award year, the Secretary confirms the eligible workforce program's published tuition and fees do not exceed the value-added earnings of the eligible workforce program, consistent with 34 CFR 690.95.

(e) A student is not included in the numerator or denominator of completion or placement rates if the student—

(i) Dies;

(ii) Experiences the onset of a medical condition that prevents employment; or

(iii) Is ordered to service in the uniformed services, including service performed under Title 10 or Title 32 of the United States Code, for a period of more than 30 days;

(iv) Becomes incarcerated.

§ 690.95 Value-added earnings

(a) For each award year, an eligible workforce program's total published tuition and fees may not exceed the value-added earnings of students who are working, received a Pell Grant for enrollment in the program, and completed the program during the cohort period defined in 34 CFR 690.91 and described in paragraph (i) (2).

(b) An eligible workforce program's value-added earnings are determined by calculating the difference between—

(1) The median earnings of such students during the earnings measurement period as defined in 34 CFR 690.91, as adjusted by

the State and metropolitan area regional price parities of the Bureau of Economic Analysis based on the location of such programs; and

(2) 150 percent of the poverty line applicable to a single individual as determined under section 673(2) of the Community Service Block Grant Act (42 U.S.C. 9902(2)) for such tax year.

(c) No later than three months prior to the beginning of the award year, the Secretary will publish the value-added earnings that will apply to the eligible workforce program for that upcoming award year.

(d) The institution must keep published tuition and fees at or below the value-added earnings calculated for the program for all students who first enroll in the eligible workforce program during the award year that begins following the annual release of the program's value-added earnings.

(e) Programs that have a calculated value-added earnings of zero or negative value shall not be eligible for Federal Pell Grant funds.

(f) The institution must provide, upon request, evidence satisfactory to the Secretary that its published tuition and fees does not exceed the published value-added earnings for that award year.

(g) In calculating the value-added earnings for an eligible workforce program, the Secretary uses student completion data

that the institution is required to report to the Secretary to support its administration of, or participation in, the title IV, HEA programs to—

(1) Compile a list of students who received Federal Pell Grant funds and who completed each program during the cohort period, after which the Secretary—

(i) Provides the list to institutions; and

(ii) Allows each institution to correct the information reported by the institution on which the list was based, no later than 60 days after the date the Secretary provides the list to the institution;

(2) Obtain from a Federal agency with earnings data the median annual earnings of the students on each list, as provided in paragraph (h) of this section; and

(3) Calculate the value-added earnings and provide it to the institution.

(h)

(1) If the final list of students who completed the program during the cohort period includes at least 50 students, the Secretary sends information about those individuals to the Federal agency with earnings data;

(2) If the final list of students who completed the program during the cohort period does not include at least 50 students, the Secretary adds students who completed the same program

during the first award year prior to the cohort period. If the combined number of completers from both award years includes at least 50 students, the Secretary sends information about those individuals to the Federal agency with earnings data;

(3) If the final list of students who completed the program during the cohort period and the first award year prior to the cohort period does not include at least 50 students, the Secretary adds students who completed the same program during the second award year prior to the cohort period. If the combined number of completers from all three award years includes at least 50 students, the Secretary sends information about those individuals to the Federal agency with earnings data;

(4) If the final list of students who completed the program during the cohort period and the first and second years prior to the cohort period does not include at least 50 students, the Secretary adds students who completed the same program during the third award year prior to the cohort period. If the combined number of completers from all four award years includes at least 30 students, the Secretary sends information about those individuals to the Federal agency with earnings data;

(5) If the final list of students who completed the program during the cohort period and the first, second and third award years prior to the cohort period does not include at least 30

students, the Secretary does not calculate value-added earnings for the program for that award year.

(i) For each list submitted to the Federal agency with earnings data, the agency returns to the Secretary median annual earnings of the students on the list whom the Federal agency with earnings data has matched to earnings data, in aggregate and not in individual form.

(1) If the Federal agency with earnings data includes reports from records of earnings on at least 16 students who completed the program, the Secretary uses the median annual earnings provided by the Federal agency with earnings data to calculate the value-added earnings for the program.

(2) If the Federal agency with earnings data includes reports from records of earnings on less than 16 students who completed the program, the Secretary does not calculate the value-added earnings for the program for the award year.

(j) When calculating value-added earnings, the Secretary includes completers from all eligible workforce programs with the same six-digit CIP code.

(k) Notwithstanding paragraph (b) of this section, if more than 50 percent of students described in paragraph (a) are not located in the State in which the institution offering the program is located, the Department will not adjust the program's

median earnings by the State and metropolitan area regional price parities of the Bureau of Economic Analysis.

§ 690.96 Loss of eligibility

If an eligible workforce program fails to meet the requirements

-

(a) Under 34 CFR 690.93, the program will become ineligible at the end of the payment period that begins following the date that-

(1) The Governor acts to withdraw approval for an eligible workforce program; or

(2) The Governor fails to reapprove the program.

(b) Under 34 CFR 690.94, the program will become ineligible at the end of the payment period that begins after the date that the Secretary determines that the institution failed to meet the completion rate or job placement rate requirements, except that the Secretary will not make such a determination while a program's eligibility, approval, or reported completion rate of job placement rate is in an appeal status or awaiting the Governor's final approval determination.

(c) Under 34 CFR 690.95 -

(1) The program will become ineligible at the beginning of the award year following the release of the value-added earnings; and

(2) The Secretary will assess a liability for amounts of Pell Grants disbursed for students enrolled in the eligible workforce program during the award year for which the value-added earnings were calculated and shall collect any such liability from the institution.

§ 690.97 Regaining eligibility

(a) If an eligible workforce program loses eligibility based on the Secretary's determination that the program's completion rate or job placement rate failed to meet the requirements under 34 CFR § 690.94(a)(2) or the institution voluntarily discontinues a failing eligible workforce program, the institution may not seek to reestablish the eligibility of the failing program, or to establish eligibility for a substantially similar program sharing both (i) the same four-digit CIP code, and (ii) identical SOC codes according to the CIP SOC Crosswalk that is provided by a Federal agency, until two years following the earlier of the date the program loses eligibility under 34 CFR § 690.96(b) or the date the institution voluntarily discontinues the failing workforce program.

(b) If an eligible workforce program loses eligibility due to a loss of Governor approval described in (a) of this section, the program may reestablish eligibility after the Secretary receives the Governor's certification that the program has been approved as provided under 34 CFR 690.93(c), and after the Secretary

determines the program has met eligibility criteria under 34 CFR 690.94.

(c) If an eligible workforce program loses eligibility because its published tuition is higher than its value-added earnings under 34 CFR 690.89(e), the institution may, through a process described by the Secretary, request that the program's eligibility be reinstated by-

(1) Providing to the Secretary a new certification of the Governor's approval of the program as provided under 34 CFR §690.93(c);

(2) Submitting to the Secretary documentation of the program's current published tuition and fees and an attestation that the tuition and fees have been reduced and will remain equal to or less than the program's recalculated value-added earnings; and

(3) Requesting a recalculation of the program's value-added earnings to determine whether the program's updated tuition and fees that will apply to the next award year exceed the program's value-added earnings.
