

## Abstract

*(Name of Applicant)* Idaho State University (ISU) requests funds from the United States Department of Education to implement and operate the College Assistance Migrant Program (CAMP) described herein at its *(number and location of proposed sites)* main campus in *(City/State)* Pocatello, Idaho. ISU CAMP will serve eligible migrant seasonal farm workers (MSFW) and their families from the six surrounding counties - identifying, recruiting, enrolling and retaining *(number of participants to be served annually)* 30 eligible participants per year. ISU CAMP strategic recruitment plan will provide a bilingual recruiter that identifies and attends/participates in events/locations where MSFW reside. *(proposed project outcomes)* As ISU CAMP targets a local population, we anticipate that *(commuter/residential)* 40% of the participants will reside on campus, with the other 60% commuting from surrounding communities. In accordance with GRPA 1 and 2, Idaho State's CAMP is designed with the goal that 86% of participants will complete their first year of college and 90% will return for their second year at ISU. ISU CAMP will provide comprehensive retention efforts through individual educational plans, CAMP Summer Bridge, academic tutoring, career assessments, housing learning community, to meet needs of MSFW students; while collaborating with organizations to provide *(follow-up)* services. *(project and objectives)* ISU CAMP will rely on the following goals and objectives to achieve the GPRA requirements: (Goal 1 - Support The Success Of MSFW Students In Enrolling And Completing Their First Year Of College (Goal 2 - Building on the Structures Built in Goal 1, CAMP Students will continue their postsecondary path towards degree completion (GPRA 2). *(applicable priorities)* ISU CAMP will participate in Competitive Preference Priority 1 – by providing participants access to STEM internships, apprenticeships, or other work-based learning experiences.
