# STUDENT ART EXHIBITION

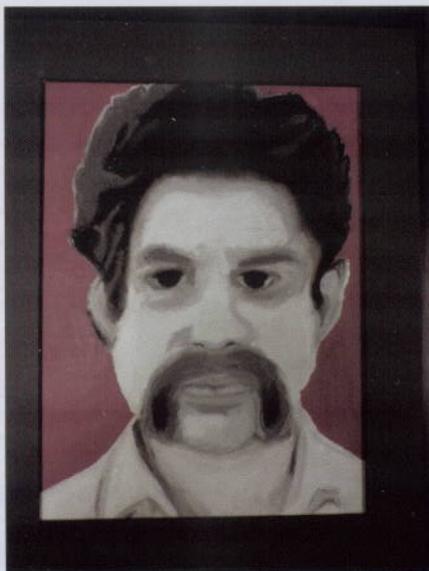

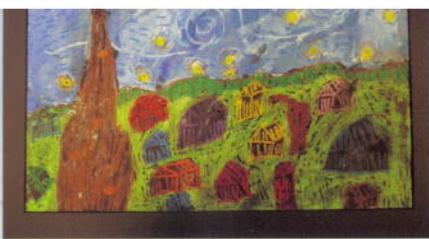

MARCH 31, 2014

The U.S. Department of Education's Student Art Exhibit Program, in operation since 2004 under the direction of the Office of Communications and Outreach and the Office of Innovation and Improvement, features visual art created by students in U.S. and international schools. The program provides students and teachers an opportunity to display creative work from the classroom in a highly public place that honors their work as an effective path to learning and knowledge for all. The works also provide Department employees and visitors with both a beautiful environment and the means to be in touch with the Department's principal customers—students.

The program features two exhibits at all times throughout the year: The winners of the Scholastic Art & Writing Awards are exhibited for a year beginning every August, and another exhibit, rotated every two to three months, accommodates the many educators who want to exhibit their students' work. Exhibits are currently booked through 2018. To schedule a visit to the exhibits contact Nicole Carinci at [nicole.carinci@ed.gov](mailto:nicole.carinci@ed.gov) or at 202-453-5585, and to learn more about the exhibiting opportunity contact Jackye Zimmermann at [jacquelyn.zimmermann@ed.gov](mailto:jacquelyn.zimmermann@ed.gov) or at 202-401-0762. - Remarks from Acting Assistant Deputy Secretary for Innovation and Improvement, Nadya Dabby
- Concept Schools President, Sedat Duman
- Horizon Science Academy Cleveland High School art teacher, Jennifer Cooper
- Ohio Senator Sherrod Brown by video
- Robotics Demonstrations
- Horizon Science Academy Columbus High School student Erind Koci
- HSA McKinley Park Pink Techno Bots robotics team

## Concept Schools

Concept Schools is a not-for-profit charter school management organization based in the Chicago area. Concept's mission is to prepare students for college by creating effective learning environments of high standards with a rigorous curriculum focusing on Science, Technology, Engineering and Mathematics (STEM).

Our annual art fairs and this exhibition are important opportunities to recognize outstanding student achievements in the arts. Not only do they encourage art education but they also promote cross-curricular creativity and expression. This exhibit allows students to proudly display their hard work as well as to view the works of others.

The featured artwork is in the following categories: Drawing, Painting, Photography, Printmaking, Mixed Media, and more.
