

UNITED STATES DEPARTMENT OF EDUCATION
OFFICE OF ELEMENTARY AND SECONDARY EDUCATION
OFFICE OF MIGRANT EDUCATION

HIGH SCHOOL EQUIVALENCY PROGRAM (HEP)
AND COLLEGE ASSISTANCE MIGRANT PROGRAM (CAMP)
2024 APPLICATION FOR NEW GRANTS

FREQUENTLY ASKED QUESTIONS (FAQs)

November 14, 2023

General Information:

Q1: What information specific to project objectives must applicants address in their application?

A1: According to 34 C.F.R. § 75.112, applicants must include in their application a narrative that describes how and when the applicant plans to meet each objective of the project, in each budget period of the project. The objectives of the project include the performance measures that the U.S. Department of Education (Department) has established as well as any other objectives grantees have established that are specific to the project.

Q2: Are the performance measures considered to be the objectives for the program?

A2: Performance measures are the core objectives that apply to all HEP and CAMP grantees, but projects may also establish their own goals and objectives within the scope of the program's authorizing legislation and regulations.

Q3: If the performance measures are the core objectives of the project, what are the merits of going beyond these requirements to write other project goals/objectives?

A3: The performance measures may not address all the needs applicants have identified for their projects.

Q4: In addition to the performance measures, how many objectives are recommended?

A4: There is no minimum or maximum number of proposed project objectives. However, applicants should be mindful that this is a grant competition, that they will be held to all proposed objectives, and if selected for an award, they will have to report annually on their progress towards each project objective in an Annual Performance Report.

Q5. Where can an interested applicant find information on successful HEP and CAMP applicants?

A5. The list of HEP and CAMP grantees is available on the Department's website at the links below:

High School Equivalency Program:

<https://oese.ed.gov/offices/office-of-migrant-education/high-school-equivalency-program/awards-high-school-equivalency-program/>

College Assistance Migrant Program:

<https://oese.ed.gov/offices/office-of-migrant-education/college-assistance-migrant-program/awards-college-assistance-migrant-program/>

Q6. How does an applicant determine if it has a sufficient migrant worker population in its area to warrant a need for the grant?

A6. It is the responsibility of the applicant to decide how to determine if there is sufficient need for its proposed HEP or CAMP project. As a part of the application, HEP and CAMP applicants are required to submit student enrollment targets for each year of the project and are held accountable by the Department for meeting those enrollment targets. Applicants should carefully consider whether there is sufficient need to support the objectives outlined in a proposed application. There are a variety of resources that are publicly available on the national farmworker population; however, these data may not be specific to migrant and seasonal farmworkers as defined in 34 C.F.R. § 206.5.

Q7. What is the recommended cost per student for HEP and CAMP projects?

A7. The Department does not provide a recommended cost per student for HEP and CAMP projects. However, the Department has established efficiency targets for the three types of HEP and CAMP projects: commuter, residential/commuter, and residential. These targets are based on the cost per HEP student who receives their High School Equivalency (HSE) diploma and per CAMP student who successfully completes the first year of postsecondary education and subsequently continues postsecondary education. The HEP and CAMP efficiency targets for FY 2024 are:

FY 2024 HEP Efficiency Targets

Measure	Target
The cost per HSE attainer in HEP Commuter projects.	\$10,438
The cost per HSE attainer in HEP Commuter-Residential projects.	\$16,451
The cost per HSE attainer in HEP Residential projects.	\$20,324

FY 2024 CAMP Efficiency Targets

Measure	Target
The cost per first year CAMP completer in CAMP Commuter projects that continued their postsecondary education.	\$16,194
The cost per first year CAMP completer in CAMP Commuter-Residential projects that continued their postsecondary education.	\$19,735
The cost per first year CAMP completer in CAMP Residential projects that continued their postsecondary education.	\$25,952

Q8. Are those HEP or CAMP projects that did not receive an award in the most recent new award competition eligible for prior experience points?

A8. No. As stated in the HEP and CAMP NIAs, only HEP or CAMP projects that are expiring (current HEP and CAMP grantees in their fifth year) will be considered for additional points under the competitive preference priority for prior experience.

Q9. Are FY 2024 HEP and CAMP applicants required to include any plans or assurances within their application?

A9. Yes. HEP and CAMP participant eligibility regulations ([34 C.F.R. § 206](#)) provide details on what must be included within each HEP or CAMP application. Please note that these requirements are not included in the generic selection criteria for the HEP and CAMP grant competitions. Therefore, it is the responsibility of the applicant to determine how to address these requirements in the application.

§ 206.20 What must be included in an application?

In applying for a grant, an applicant shall:

- (a) Follow the procedures and meet the requirements stated in subpart C of 34 C.F.R. part § 75 (Direct Grant Programs);
- (b) Submit a grant application that:
 - (1) Covers a period of five years unless extraordinary circumstances warrant a shorter period; and
 - (2) Includes an annual budget of not less than \$180,000;
- (c) Include a management plan that contains:
 - (1) Assurances that the staff has a demonstrated knowledge of and will be sensitive to the unique characteristics and needs of the migrant and seasonal farmworker population; and
 - (2) Provisions for:
 - (i) Staff inservice training;
 - (ii) Training and technical assistance;
 - (iii) Staff travel;
 - (iv) Student travel;
 - (v) Interagency coordination; and
 - (vi) Project evaluation; and
- (d) Provide the following assurances:
 - (1) The grantee will develop and implement a plan for identifying, informing, and recruiting eligible participants who are most in need of the academic and supporting services and financial assistance provided by the project.
 - (2) The grantee will develop and implement a plan for identifying and using the resources of the participating IHE and the community to supplement and enhance the services provided by the project.

Eligibility (Participant and Applicant):

Q10. Who is eligible to participate in HEP and CAMP projects?

A10. HEP and CAMP projects serve eligible migrant and seasonal farmworkers or their immediate family members. HEP and CAMP participant eligibility regulations (34 C.F.R. § 206) provide details on general participant eligibility requirements for HEP and CAMP, as well as participant eligibility requirements that are specific to each program:

§ 206.3 Who is eligible to participate in a project?

- (a) *General.* To be eligible to participate in a HEP or a CAMP project—
 - (1) A person, or his or her immediate family member, must have spent a minimum of 75 days during the past 24 months as a migrant or seasonal farmworker; or
 - (2) The person must have participated (with respect to HEP within the last 24 months), or be eligible to participate, in programs under 34 C.F.R. part 200, subpart C (Title I—Migrant Education Program) or 20 C.F.R. part 633 (Employment and Training Administration, Department of Labor—Migrant and Seasonal Farmworker Programs).
- (b) *Special HEP qualifications.* To be eligible to participate in a HEP project, a person also must—
 - (1) Not have earned a secondary school diploma or its equivalent;
 - (2) Not be currently enrolled in an elementary or secondary school;

- (3) Be 16 years of age or over, or beyond the age of compulsory school attendance in the State in which he or she resides; and
- (4) Be determined by the grantee to need the academic and supporting services and financial assistance provided by the project in order to attain the equivalent of a secondary school diploma and to gain employment or be placed in an IHE or other postsecondary education or training.

(c) *Special CAMP qualifications.* To be eligible to participate in a CAMP project, a person also must—

- (1) Be enrolled or be admitted for enrollment as a full-time student at the participating IHE;
- (2) Not be beyond the first academic year of a program of study at the IHE, as determined under the standards of the IHE; and
- (3) Be determined by the grantee to need the academic and supporting services and financial assistance provided by the project in order to complete an academic program of study at the IHE.

The above eligibility requirements must be met by each student who is enrolled in a HEP or CAMP project. The Office of Migrant Education (OME) provides additional guidance on this topic in the HEP and CAMP Recruitment and Eligibility Non-Regulatory Guidance document, available at: <https://oese.ed.gov/files/2021/09/hep-camp-eligibility-non-regulatory-guidance-2012.pdf>

Q11. Which types of institutions are eligible to apply for a HEP or CAMP award as grantees?

A11. HEP and CAMP regulations (34 C.F.R. § 206.2) restrict grantee eligibility to Institutions of Higher Education (IHE) and private nonprofit organizations. IHE has the meaning given it in sections 101 and 102 of the Higher Education Act. The definitions for “private” and “nonprofit” are in 34 C.F.R. § 77.1.

Q12. Are State agencies eligible to apply for a HEP or CAMP award?

A12. No. State agencies are not eligible to apply for a HEP or CAMP award. Please see previous response (A11) for additional information.

Q13. Please clarify how a private nonprofit organization must plan the project in cooperation with an IHE and how the organization would operate with the facilities of that IHE.

A13. HEP and CAMP regulations (34 C.F.R. § 206.2(b)) require cooperative planning for all private nonprofit organizations that are not an IHE. If a private nonprofit organization other than an IHE applies for a HEP or a CAMP grant, that organization must plan the project in cooperation with an IHE and must propose to operate the project, or in the case of a HEP grant, some aspects of the project, with the facilities of that IHE. It is the responsibility of the applicant to determine how their private nonprofit organization will cooperatively plan their project with an IHE.

Application Format:

Q14. Where in the application should applicants address the competitive priorities?

A14. The competitive priorities should be addressed under the Project Design selection criterion in an entity’s application.

Q15. Do reviewers see the appendices?

A15. Yes. Application reviewers may consider all content included within an application when evaluating relevant selection criterion.

Q16. Should the page count of each section of the application be based on how many points are allotted to each selection criteria section?

A16. The Department recommends a 25-page limit; how the applicant chooses to distribute the narrative among the sections is its decision. An application will not be disqualified if it exceeds the recommended page limit.

Q17: If we include tables in the project narrative, can we single space that section?

A17. Yes. All formatting criteria in the HEP and CAMP Notice Inviting Applications (NIAs) are recommendations by the Department. An application will not be disqualified if it does not adhere to the formatting recommendations.

Q18. What is the recommendation for the format of the logic model in terms of line spacing?

A18. All formatting criteria in the NIAs are recommendations by the Department. There are no formatting requirements for the logic model.

Q19. Does the table of contents count against the recommended 25-page narrative limit for the project narrative?

A19. No.

Q20: Can the applicant reference in one section a chart that is in another section, if the chart supports the section where the reference is made?

A20: Yes.

Q21: Can sections that will take a considerable amount of space in the narrative be addressed in tables?

A21: Tables may be appropriate to display quantitative data or a combination of quantitative and qualitative data (e.g., a table of project specific objectives with numerical targets).

Q22: May footnotes be in a bibliography format in the appendices?

A22: The applicant may include a bibliography in the appendices.

Writing the Application:

Q23. How should applicants structure their responses to the selection criteria to access the full amount points available under each criterion? In other words, how will the reviewers evaluate each criterion?

A23. Within the context of the authorizing statute and accompanying regulations, applicants may interpret and address the selection criteria however they choose. Reviewers will be instructed to consider the strengths and weaknesses of each section of the application narrative and will be told that they may use the full range of points for each criterion.

Q24. Where can an applicant find the NIAs, program statute, and program regulations?

A24. Applicants may find these resources through the links provided below:
