**Brief description of proposed project, including project activities:** Our FSCS will serve all students and will target services to those students with the most need—priority students. The vast majority of the young children, students, and youth in our Full Service Community Schools fall into at least one priority category. For example, nearly all of our students qualify for free/reduced lunch—an indicator of lower economic status. And each lives in a community of generational poverty where few adults have achieved their own academic success (low college graduation rates for adults). With that population—priority students and their families—in mind, we have developed a slate of resources and services found to be effective with this population. The foundation for our project design is the evidence-based four pillars of a full service community school. The four pillars emerged from a comprehensive review of community schools research conducted by the Learning Policy Institute (LPI). LPI concludes that the four community school pillars align closely with evidence-based features of good schools, derived from decades of research identifying school characteristics that foster students’ intellectual, social, emotional,
